In this issue E. B. Jones announces as a candidate for Trustee at the coming republican primary election. Mr. Jones has been before the people once as a candidate for this office and is well known to most of our people. Those who know him best do not question his integrity or his ability to discharge the duties of the office. From the standpoint of being a clever gentleman, we have few if any men in the county who surpass him. He will be actively mixing with the people from now until election and will present his case in person.

J. D. Wyatt was in from Isoline Saturday. He was telling us of a single oak tree he recently cut into railroad ties that made 75 ties. It was this way: The first cut made 23 ties. Just above the first cut the tree forked and each fork made nine tie lengths while some of the larger limbs made a few tie cuts. The first cuts at the fork made 14 ties each and from that up a few less to each cut. For logging and sawing these ties the mill men received 40 cents each, what the Ayer & Lord Tie Company, to whom they belonged, will get for those ties is not generally known, but it is very likely more than a dollar a tie.

Monday of last week Rev. J. V. Right began teaching the Forest Hill school. The people of that neighborhood are very fortunate in securing the services of Rev. Right for he is unquestionably much better qualified for the work than the average teacher of the county. With the hearty and persistent co-operation of the people there is no doubt that the work that will be done at Forest Hill this year will be far in advance of that of the average school of the county. We predict that when the good people of that section once begin to realize the opportunity they have for a good school they will heartily co-operate with Rev. Right to the end that splendid results will be attained.
